ABOUT ME :

Dedicated and innovative Mechanical Product Designer with two years of work experience in designing, drafting, and 3d modeling. Involved in Product Design Process, Rapid Prototyping, Development of new product. Committed to continuous learning and professional growth in the ever-evolving field of engineering design.

EXPERIENCE

INTERNSHIP at MIRANA INNOVATION PVT. LTD, Pune
FEB 2022 - JUL 2022

- Modify old 3D design and give this files to vendors.
- Visit vendors for mold corrections and provide modification design files.
- Provide 2D Design to Quality department for quality checking and purchase department for purchase order.
- Sometimes take responsibility of production department and quality department.

MIRANA INNOVATION PVT. LTD, Pune
AUG 2022 - MAY 2024

Role: PRODUCT DESIGN ENGINEER

- Develop and modify CAD models, assemblies and Design drawings using CATIA , Solidworks and Autocad.
- Participated in the creation of prototypes using 3D printing to validate design concepts and functionality.
- 3D modelling, Reverse Engineering, Rapid Prototyping.
- Collaborate with production, and quality teams to refine product specifications, material selection, and production processes.
- Prepared and maintained detailed CAD models, BOM, engineering drawings, and technical specifications, ensuring accuracy and consistency across all documentation.
- Collaborate with vendors and design 3D models as per manufacturing process.
- As per molding, maintain thickness of products also apply proper drafts, fillets, chamfers, etc. Design changes as per Tooling Feasibility, Strength Defects.
- Perform R and D on molding parts and troubleshooting and resolving design issues.
- Knowledge of Manufacturing Process & Material Selection. Basic knowledge of Injection Molding, core, and cavity, VMC machine.
- Considering electronics things like batteries, motors, speakers, PCBs in mind and arranging them properly in the product.
- Participated in project meetings to gain insights into the design process.

EDUCATION

KJ COLLEGE OF ENGINEERING AND MANAGEMENT RESEARCH, PUNE
Bachelor's Degree in Mechanical engineering
COMPLETED in 2021 with **7.78 CGPA.**

LAXMANRAO APTE JUNIOR COLLEGE, PUNE
Completed Higher secondary education

COMPLETED in 2015 with **54.77%.**

LAXMANRAO APTE PRASHALA, PUNE
Completed Secondary education
COMPLETED in 2013 with **72.60%.**

SKILLS

- CAD Software : CATIA (Sketcher, Part Design, Assembly, Drafting, Boolean operations).
- Experienced in rapid prototyping, 3D printing, and CNC machining.
- Strong understanding of material properties and selection for various applications.
- Knowledgeable in injection molding.
- Proficient in optimizing designs to enhance manufacturability, reduce costs, and streamline assembly processes.
- Good imagination from 2D to 3D.
- Good at 1st angle and 3rd angle assumption.
- Also basic experience in CREO and SOLIDWORKS.
- Preparation of reports and presentations.
- Ability to take responsibility and having good problem solving skills.

Extra-Curricular Activities

- Participated and Organized many programs in "National Service Scheme" at KJCOEMR.
- Organized the "Go Cycle Rally" at KJ College Of Engineering & Management Research 2018.
- Participated in sports and cultural activities in school level and college level.

NEODES DESIGN, Pune

JUN 2024 - NOV 2024

- **Role: Production & Manufacturing Trainee**
- At Neodes Design, a company specializing in the design and production of high-quality medical equipment and enclosures, I worked in the Production Department where I gained hands-on exposure to manufacturing operations and product development processes.
- My responsibilities and learning areas included:
 - Understanding and observing mold design and development for medical product enclosures.
 - Monitoring the painting and surface finishing processes.
 - Assisting in quality inspection and quality control checks.
 - Participating in vendor visits to understand supply chain coordination.
 - Supporting production line planning and workflow management.
 - Learning about new product development from design to final production stage.
- This role helped me understand the complete manufacturing cycle of medical equipment enclosures, from design concepts to final quality-checked products.

SHRIRAM MANUFACTURERS AND SUPPLIERS, Pune

JUN 2025 - PRESENT

- **Role: Operations Coordinator (Technical Equipment)**
 - Detail-oriented and customer-focused professional with experience in managing quotations, proforma invoices, stock maintenance, and customer relations in a fast-paced painting equipment company. Skilled in troubleshooting and repairing equipment, handling customer queries, and ensuring smooth operations in service delivery. Seeking to leverage my expertise to contribute to a dynamic team.
 - My responsibilities and learning areas included:
 - Oversee day-to-day operations, ensuring projects and services are delivered on time and within budget.
 - Coordinate with suppliers and clients to ensure seamless order processing, stock management, and equipment availability.
 - Troubleshoot and resolve customer issues promptly to maintain customer satisfaction.
 - Lead efforts for improving efficiency in service delivery and inventory control.
- This role would allow you to leverage your current responsibilities while also providing room for growth and leadership in a technical operations environment.

SKILLS

- New Product Development (NPD)
- Mold Design & Development
- Quality Control (QC)
- Surface Finishing
- Production Workflow Planning
- Vendor Coordination
- Supply Chain Management
